
Admin RBAC — Endpoint × Role Matrix

Every admin endpoint and what each role gets, generated from the route definitions on 6 September 2026.

Aajoo Homes — Admin RBAC

Prepared 6 September 2026 by the ZypheX Tech development team

Verified against the live development backend and database

Generated from the route definitions on 6 September 2026, not transcribed by hand: every row is read out of `routes/*.js` and every cell is decided by calling the same functions the middleware calls. If a gate changes, this file changes with it.

191 admin endpoints. `200` means the role reaches it; `403` means the server refuses; `no_gate` marks the two endpoints that are deliberately unauthenticated.

- `POST /admin/login` — the login itself.
- `POST /admin/create` — authorised inside the controller: it is open only while no admin exists at all, and demands a super-admin token from the second account onward.

How the three narrower roles are confined. 29 endpoints carry an explicit `requireRole`; the remaining 162 were written when every administrator was equivalent. Rather than gate them one by one — where the failure mode of forgetting one is a role that reaches something it should not — `seo_manager` and `support` are confined centrally in `adminAuth` / `adminAuthToken` against a named list of what they MAY reach. A new endpoint is refused to both until somebody chooses to add it.

`finance` and `admin` are not confined that way: `admin` is the operations role, and `finance` is separated from it by the 27 explicit gates on the finance routes — of which 8 are write-gated to `super_admin` and `finance` alone, so an operations administrator cannot approve a payout.

Analytics

Endpoint	super_admin	admin	finance	support	seo_manager
<code>GET /admin/analytics/category-properties</code>	200	200	200	403	403
<code>GET /admin/analytics/graph</code>	200	200	200	403	403
<code>GET /admin/analytics/locations</code>	200	200	200	403	403

Booking

Endpoint	super_admin	admin	finance	support	seo_manager
<code>POST /admin/booking/amend</code>	200	200	200	403	403
<code>POST /admin/booking/detail</code>	200	200	200	200	403
<code>POST /admin/booking/search</code>	200	200	200	200	403
<code>GET /admin/booking/status/list</code>	200	200	200	200	403
<code>POST /admin/booking/status/listing/admin-page</code>	200	200	200	403	403
<code>POST /admin/booking/status/update</code>	200	200	200	403	403
<code>POST /admin/booking/update</code>	200	200	200	403	403

CMSSection

Endpoint	super_admin	admin	finance	support	seo_manager
